1. _____Cutting line_____: Angle at which the fingers are held when cutting, and, ultimately, the line that is cut

2. _____Wide tooth comb_____: Tool used when cutting thicker and longer lengths, where detailing is not required

3. _____Interior_____: Inner or internal part

4. _____Graduated haircut_____: Graduated shape or wedge; an effect or haircut that results from cutting the hair with tension, low to medium elevation or over direction

5. _____Guideline_____: Section of hair, located either at the perimeter or the interior of the cut, that determines the length the hair will be cut

6. _____Haircutting shears_____: Used mainly for removing length and detailing the haircut

7. _____Elevation_____: Angle or degree at which a subsection of hair is held or lifted from the head when cutting

8. _____Tension_____: Amount of pressure applied when combing and holding a section, created by stretching or pulling the section

9. _____Correct body positioning_____: Rolling your shoulders back and standing directly (parallel) in front of the section on which you are working

10. _____Layered haircut_____: Graduated effect achieved by cutting the hair with elevation or over direction; the hair is cut at higher elevations, usually 90 degrees or above, which removes weight

11. _____Thinning shears_____: These tools are great for removing excess bulk and for blending one length with another

12. _____Over direction_____: Combing a section away from its natural falling position, rather than straight out from the head, toward a guideline; used to create increasing lengths in the interior or perimeter

13. _____Stationary guideline_____: Guideline that does not move

14. _____Part/parting_____: Line dividing the hair at the scalp, separating one section of hair from another, creating subsections

15. _____Texturizing_____: Haircutting technique designed to remove excess bulk without shortening the length

16. _____Perimeter_____: Outer line of a hairstyle

17. _____Sections_____: To divide the hair by parting into uniform working areas for control

18. _____Moving guideline_____: Guideline that moves as the haircutting progresses, used often when creating layers or graduation

19. _____Weight line_____: Visual line in the haircut where the ends of the hair band together
