

Teacher Instructions for Inside/Outside Circle Activity

Directions:

1. Prior to activity, develop a pool of questions or topics that will be discussed or reviewed.
2. Seat students in concentric circles (inside circle of students are facing students in the outer circle). See diagram above.
3. Present the first question or topic of discussion/review.
4. Allow students facing each other 1-2 minutes to discuss question or present information. Call time.
5. Instruct the inside circle of students to rotate one person to the right, so that everyone is facing a new partner.
6. Present the second question or topic of discussion. Continue the process until all questions or topics have been discussed.
7. You may utilize the Stopwatch tool <http://www.online-stopwatch.com/> to assist in keeping track of time.
