Working Together: Hotel Departments
3D Graphic Organizer Project

Gather the following materials:

Colored paper (5)
Ruler
Tape

Instructions for making a 3D graphic organizer can be found on:

YouTube™:
How to Make a Six Panel Overlap
http://youtu.be/UILX5mMhXyA

Be sure to use reliable sources for your information.

You will need to use a minimum of 5 pages (doubled over makes 10, one for each department). You may use more for additional pages such as title page, food services, or a summary page. The more pages you use the closer you will have to overlap them.

Requirements for your project:

- o Department Title on the exposed edge
- o A minimum of three responsibilities for that department/function that are not included in the lesson / guided notes
- o An image that represents the department/function
- o Three job titles that would fit within that function and a typical or approximate salary for that job title
- o Free of grammatical and spelling errors
- o Be creative!
